## PROFILE

---

As an aspiring undergraduate student with a keen passion for web development and machine learning, I have worked on multiple projects, crafting user-friendly frontends for various websites. I am also interested in artificial intelligence and have completed several online courses to enhance my knowledge in this field. I am seeking opportunities to apply my skills and knowledge to real-world problems and contribute to the development of innovative solutions.

## SKILLS

---

Frontend web  
development (React)  
Version control (with git)  
Writing (both fictional and  
technical)  
Python, JavaScript, C, C++
